GRAND ENTRANCE

In our never-ending search for the most unique project vehicles, we came across this beauty at one of the local CSCS events. Now this isn't your regular sport compact that you find hanging out with the other Civics, Integras, and Celicas at your local donut shop. And although it's a domestic, it isn't even a dressed-up Cavalier or Neon like you may be thinking. Believe it or not, Frank Szoke of Toronto decided to team up with RSM Racing to build this one-of-a-kind 1999 Pontiac Grand Am.
